

Heart Land Prairie Cemetery

529 Sunset Dr. Salina, KS 67401

Contract for Interment Services

Heart Land Prairie Cemetery (HLPC) is a non-profit, natural burial ground and restoration prairie project.

I understand and agree to the following:

HLPC accepts only un-embalmed bodies or cremated remains.

All burial containers must be non-toxic and biodegradable.

HLPC is maintained in a state of natural prairie, that only native prairie species will be planted on the gravesite, and that no flower stands, pots, vases, plastic or other non-biodegradable items will remain on the grave.

The gravesite will be marked with a numbered survey stake along with GPS coordinates. HLPC approved engraved memorials of natural stone are permissible along a memorial trail at the site.

HLPC does not have a paved path. The interment sites will be accessible only by an unpaved path. I understand that there can be hazards associated with such an environment. Furthermore, it is my understanding that the family/friends can elect to participate in the opening/closing of the grave and lowering of the body. I agree to indemnify, defend and hold harmless Heart Land Prairie Cemetery from and against any claims, liabilities, costs or expenses arising out of the participation in the burial or visitation by any person to the interment site subject to this contract.

Vehicles, other than those under the direct control of the cemetery (or in association with the funeral director or person acting as such as permitted in Kansas state statute 65-1713b) are not allowed access to the gravesite without permission from cemetery staff.

Due to the nature of burials at Heart Land Prairie Cemetery, disinterment of remains is not possible.
